

Methods

Distinctiveness

- Extracted feature matrix of /l/ in *filou* /filu/ “trickster” produced by participant P6 in FR-MRI.

Latent dimensions (shown as saliency maps)

Methods

Preview

1. Data: acoustic/articulatory data from published datasets
2. Distinctiveness measurement in acoustics & articulation
- 3. Bigram surprisal calculation**
4. Phoneme flexibility: degree of freedom between articulatory synergies & the speech target
